PCAP: Programming Essentials in Python

Statement of Achievement

Presented To:	
CHINNAM NARENDRA PRASAD	
Name	
During the Cisco Networking Academy® self-paced course, the student has studied the	e following Skills:
 the universal concepts of computer programing (i.e. variables, flow control, data structures, algorithms, developer tools and the runtime environment; 	conditional execution, loops, functions, etc.)
 the syntax and semantics of the Python language; 	
 the syritax and semantics of the Fythor language, the fundamentals of object-oriented programing and the way they are adopted in Python; 	
 the means by which to resolve typical implementation problems; 	
the writing of Python programs using standard language infrastructure;	
 fundamental programing techniques, best practices, customs and vocabulary, including the most comm 	non library function in Python 3;
1. Men	10 lul 2021

By completing the course, the student is now ready to attempt the qualification PCAP-Certified Associate in Python Programing certification, from the OpenEDG Python Institute.
